CO Eurizon SLJ EM Bond Strategic Income UCITS ETF (the "Fund") - Class A GBP Hedged Distributing (the "Share Class")

A sub-fund of Connect ETFs ICAV

Investment Manager: Eurizon SLJ Capital Limited
ISIN: IE000U8A7X11

Management Company: Carne Global Fund Managers (Ireland) Limited
Currency: GBP

Objectives and investment policy

The investment objective of the Fund is to provide income with an opportunity for capital growth, by investing primarily in a broad range of bonds and fixed income assets from across the Emerging Markets universe. There is no guarantee that the investment objective will be achieved and it may not always be possible to achieve.

Investment Policy

The Fund is actively managed and has no benchmark. In order to achieve its investment objective, the Fund will invest, in a manner consistent with the UCITS Rules, in debt securities issued by corporates, government or corporate agencies or government entities which have a significant portion of assets, investments, production activities, trading or other business interests in Emerging Markets or which derive a significant part of their revenue from Emerging Markets. The Fund may invest in a broadly diversified portfolio of securities with no fixed geographical or industry sector weightings.

The Fund will invest in debt securities of varying maturities. At least 51% of the Fund's Net Asset Value will be invested in debt securities which are rated investment grade by at least one rating agency.

Beyond this, there is no further limitation on the portion of the Fund's Net Asset Value which will be invested in debt securities which are below investment grade or which may not be rated.

Debt securities as referred to above shall include fixed income bonds, floating rate bonds, and commercial paper issued by corporations, government or corporate agencies and government entities which predominantly are domiciled or conduct the majority of their economic activity in Emerging Markets.

The Fund promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

You can buy or sell shares in this Share Class through an intermediary (e.g. a stockbroker) via the stock exchanges where the Fund is traded. In normal circumstances only Authorised Participants can subscribe for and redeem shares directly with the Fund, in accordance with the Prospectus and Supplement.

This Share Class aims to distribute quarterly dividends out of its income from investments.

Risk and reward profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The risk and reward indicator is a measure of risk based on the past performance and simulated past performance of the Share Class.
- The risk and reward indicator is calculated using historical and simulated data. Historical and simulated data may not be a reliable indication for the future.
- The Share Class is rated 4 due to the nature of its investments, specifically the extent and frequency with which these investments have fallen and risen historically.
- The lowest category does not mean 'risk-free'.
- The risk and reward profile shown is not guaranteed to remain unchanged and may shift over time.
- This risk and reward indicator is not a complete measure of the risk of losing the money that you have invested.
- The Share Class is neither capital-protected nor guaranteed. You may lose the entire amount that you have invested. The indicator does not take into account the following risks of investing in the Share Class (please refer to the Prospectus and Supplement for full details of the risks):
Credit Risk: The risk that the issuer of debt instruments fails to pay to the Fund interests and principal, even only in part.

High Yield Risk: Securities in this category are largely speculative, reflecting doubts about the issuer's ability to make principal and interest repayments. Although they offer higher chances for capital growth and yields, high yield securities usually come with increased price volatility and may be less liquid than more highly rated

Interest Rate Risk: The bonds held in the Fund may fall in value due to changes in interest rates and/or inflation.

Exchange Rate Risk: The Fund may invest in securities denominated in currencies other than its base currency or the Share Class currency. Changes in currency exchange rates may adversely affect the performance of the Fund and/or of the Share Class.

Currency Hedging Risk: If the Share Class uses derivatives to change its currency exposure, its performance could be significantly affected by foreign exchange rate fluctuations. This may occur because the Share Class's currency positions may not align with the securities holdings attributable to it.

Liquidity Risk: The bonds held by the Fund may well be less liquid than developed market bonds. They may be challenging to sell due to market conditions and/or a limited number of buyers. Consequently, the sale prices could be lower than the instruments' intrinsic value, and/or instruments may take longer to sell than

Emerging Market Risk: This risk stems from investing in regions susceptible to economic, political or market instability, tax and/or regulatory change, or other uncontrollable events that may lead to losses for the Fund.

Counterparty Risk: The risk that a third-party with which the Fund has entered into a contract (e.g. a currency derivative hedge) may default on its obligations.
